

Statement Concerning Gene Technological Status of Herbacel AQ Plus Apple - A 09

No raw materials which are genetically modified or rather contain genetically modified organisms (GMO's) are used to manufacture Herbacel AQ Plus Apple - A 09.

In the production of the product no processing aids (e. g. enzymes) are included which are obtained by using genetic engineering.

We guarantee that the product Herbacel AQ Plus Apple - A 09 does not contain genetically modified organisms (definition according Directive 2001/18/EC in the current version) and there is no obligation for labelling according to Regulations (EC) No 1829/2003 and (EC) No 1830/2003 in the current version.

Definitions (according Directive 2001/18/EC from 12.03.01, OJ L 117/15):

- Genetically modified organism: An organism, with the exception of human beings, in which the genetic material has been altered in a way that does not occur naturally by mating and/or natural combination.
- Organism: Any biological entity capable of replication or transferring genetic material.
