

Statement Concerning Environmental Labelling according to Decision 97/129/EC

Product groups: **Herbacel Classic AF, OF, CF, Herbacel AQ Plus**

The product groups mentioned above delivered by Herbafood Ingredients GmbH are usually packaged as follows:

Description	Environmental labelling
paper bag with PE inliner	usually C/PAP 81
sewing yarn	contributes less than 5 % to the packaging and therefore does not have to be labelled
cardboard	cardboards in stock, exact composition has not yet been provided by our suppliers
foil on top	foil made of plastic in stock, exact composition has not yet been provided by supplier
stretch foil	stretch foil made of plastic in stock, exact composition has not yet been provided by supplier
one-way pallet / container pallet / euro pallet	FOR 50
plastic pallet	plastic pallets in stock, exact composition has not yet been provided by supplier

We use up our remaining packaging stock from the warehouse. Packaging which was produced or placed on the market before 31st December 2022 can still be used and does not need updated environmental labelling. The labelling of transport packaging material can also be stated on the transport documents and does not have to be applied directly on the packaging material.
